## HOMOGENEOUS AND HETEROGENEOUS MIXTURES

A homogeneous mixture has a uniform composition. In contrast, the composition of a heterogeneous mixture varies depending on where you sample it. Identify each mixture as either homogeneous or heterogeneous.

1	Air	Homogeneous
2	Potting soil	Heterogeneous
3	Gasoline	Homogeneous
4	Cereal and milk	Heterogeneous
5	Sugar water	Homogeneous
6	Coffee	Homogeneous
7	Tossed salad	Heterogeneous
8	Vinegar	Homogeneous
9	Soda with ice	Heterogeneous
10	Natural gas	Homogeneous
