INTRINSIC AND EXTRINSIC PROPERTIES

An intrinsic property is the same regardless of conditions. An extrinsic property changes according to external factors. Identify each property as intrinsic or extrinsic.

1	Volume of a solid	Intrinsic
2	Weight	Extrinsic
3	Length	Intrinsic
4	Velocity	Extrinsic
5	Color	Extrinsic
6	Malleability	Intrinsic
7	Hardness	Intrinsic
8	Melting point	Intrinsic
9	Pressure	Extrinsic
10	Density of a solid	Intrinsic
