Date _____

INTRINSIC AND EXTRINSIC PROPERTIES

An intrinsic property is the same regardless of conditions. An extrinsic property changes according to external factors. Identify each property as intrinsic or extrinsic.

1	Volume of a solid	
2	Weight	
3	Length	
4	Velocity	
5	Color	
6	Malleability	
7	Hardness	
8	Melting point	
9	Pressure	
10	Density of a solid
